

Pinot Noir Terra Quartär

0,75 L

The origin of this wine is an ancient subtropical sea. The fertile soils and the warm climate ensure healthy and ripe grapes. The combination of good water retention and the warming properties of this special loess soil promotes the development of flavours and produces very elegant wines. The result is an intensely flavoured Pinot Noir that offers a great balance between aromas of fruits of the forest and raspberry with a subtle spiciness and a hint of mocha on the palate.

Country of origin / region

Deutschland, Pfalz
