

## Scheurebe vom Urmeer

0,75 L

The primeval sea in Rheinhessen was formed several million years ago when the sea dried up. This left behind a mineral and at the same time very fertile soil, which offers our Scheurebe ideal growing conditions. You can feel the unique character of this terroir on the palate: fine fruit, crisp freshness paired with juicy aromas. A perfect wine to enjoy well-chilled with green salad, fish, vegetarian dishes or simply for a cozy patio evening with friends.

### Country of origin / region

Germany, Rheinhessen
