

Gewürztraminer

0,75 L

Kendermanns wines combine great flavour with modern tradition in a range of premium wines, meeting the tastes of today's consumer. Kendermanns Gewürztraminer is a typical example and is grown in the German wine region of the Pfalz. The weather here is usually sunny and dry, allowing the grapes to achieve optimum ripeness. Our young winemaker Hendrik Sowka combines modern techniques with wine expertise under the traditional Kendermanns brand. Kendermanns Gewürztraminer is a vegan wine and smells of lychee and rose petals. With its complex bouquet, the Gewürztraminer appeals to all lovers of aromatic wines. This dry wine goes perfectly with spicy dishes and can also be enjoyed as an aperitif.
